

Let them have International offices (*we have NA*)

At the Connecticut History event we heard a World Board member share their excitement over the advent of NA in Nepal. This World Board member shared this as if it were critically important regardless of how current 'NA' structural services especially at the 'world' level are constantly violating our precious Spiritual principles. Most of the sophisticated, informed, surrendered NA members and Groups have, by now, realized that NAWs has their own agenda; that Profit, Power, and Control for them Transcends any valid grassroots efforts to carry a genuine message of recovery from addiction to addicts who still suffer.

NAWS does not represent genuine NA. They are Directly Responsible to no-one but themselves, they are Directly Responsible to nothing but money property and prestige. Many who realize these facts wonder what we can do to correct this situation. The answers are simple:

1. stop funding NAWs – send no money
2. stop buying literature – print your own see www.anonymi.info
3. Perform the services your Group needs at the Group level – do it yourself!
4. help us create an alternative – stay in touch

Many of us are working to fix this situation – we get our inspiration through prayer and meditation and sharing with each other. We are working on a new exciting grassroots NA Literature piece about Total Abstinence – you can participate: learn how by e-mail ASISFNA@yahoo.com .

More than EVER before we need to work on and share our recovery – all of our problems with 'NA' Structural "Service" stem from addiction. I have found the 12 Step Retreat to be the very best Recovery Event in NA – please come join us! (flier attached or to follow also see www.anonymi.info)
